

APTARE Professional Services Consultants

Services Offerings

ProLaunch Service

Accelerate your implementation by leveraging APTARE® Professional Services Consultants' expertise to transform and optimize your storage and backup utilization using APTARE's IT Analytics™ suite for your global deployment.

- Accelerate deployment of your APTARE solution by ensuring a smooth, reliable and timely implementation
- Maximize ROI with our structured methodology, proven best practices and unparalleled technical expertise
- Educate your staff through knowledge transfer, training and in-depth documentation

Consulting Service

Full or part-time APTARE Professional Services Consultants provide day-to-day operational services and develop business/operational reports to give you visibility into your data storage growth and eliminate the need for manual tracking.

- On-site/remote expertise transforms and optimizes storage and backup infrastructure
- Customized storage and backup reporting, such as executive dashboards and day-to-day operations reports, based on your requirements
- Proactive storage capacity planning using APTARE software products and solutions
- Continuous support for complex custom reports, data collection roll-outs, and upgrades
- Access to a large pool of APTARE in-house engineering and support experts
- Customized training programs for staff education

Training Service

With either Instructor-led or web-based training, APTARE Services equips your team with the essential core knowledge about APTARE's suite of products.

- Educate your team with APTARE cloud-based training solutions
- Become knowledgeable about administering APTARE solutions from an operational prospective
- Learn how to develop custom business, executive and line-of-business reports on storage infrastructure utilization
